Bug fixes and performance improvements Table of contents Guys, If you are looking for a Carrom Pool MOD APK or If you want the Hack Version of the Carrom Pool Game With Unlimited Coins and Gems, Unlocked Pucks, Extended striker Line, and Ads Removed, then you are here at the right place, in this post we will share with you Carrom Pool MOD APK v6.1.2 (Unlimited Coins/Gems Hack) Guys Carrom Pool is a very popular sports game, which has been made by Mincilip company. And so far it has been downloaded more than 100,000,000+ times. And it is available for both android and ios for free. Subway Surfers MOD ApkCriminal Case Mod Apk What is Carrom Pool? Carrom Pool is a great game for people of all ages and skill levels. It only takes up a small area and can be played indoors or outdoors, and it's easy to learn and play! You should know the basics before starting: how to set up, move pieces, score points, etc. In Carrom Pool, there are two different types of discs that you will use during gameplay: the cueing disc (or striker) which has a point on one end for pushing carroms around the table; and the carroms themselves which have four sides with either three or five scoring sections marked on each side. The goal of Carron Pool is simple: knock as many carroms off your opponent's side of the "pool" board as possible. Each player begins with six carroms, set up in a diamond pattern around the table. Players take turns starting play by shooting their cue disc at an empty spot on the other side of the board. At first, beginners may find it helpful to use their fingers or another flat object instead of the cueing disc to push the carrom. If carrom was hit, it is placed on your side of the board. A player's turn ends when he or she fails to land carrom on their side or fails to bank a disc off the edge of the table and into one of the corners without knocking any discs off his or her side. You can do two things after you put your carrom on the board. You can hit it so it goes off the board or you can leave it and push other discs around the table to try and knock them off. Carrom Pool is played on a square board with tiny pockets at the corners. There are also two larger pockets in the center of each side. Like billiards, Carrom Pool uses pucks or disks that are struck across the table using a cue stick. The object of Carrom Pool is to earn points by pocketing your puck into the larger pockets and by preventing your opponent from scoring. Multiplayer Mode Carrom Pool is great for playing alongside another person, whether they're a family member or a friend. It's also possible to set up solo matches so that you can practice and hone your skills. If you want to play with more than two players, simply add more boards! Scoring Scoring in Carrom Pool is similar to billiards, but there are some key differences. First, pockets aren't limited to the corners or side of the board; they include pockets in the center as well. Second, instead of aiming for object balls by shooting at them first, you must first pocket your disk before striking other disks. Third, players earn 1 point for each pocketed disk but are not awarded points for disks that are pocketed by the opponent. Unique Game Modes There are several different game modes available to suit your playing style. Some of these modes include time-limit games, where players have a certain amount of time to pocket as many disks as possible or accuracy challenges where you must try to only hit the white disks. There are also trick shots and more! This gives Carrom Pool endless replay value so there's always something new to try. Great for All Ages Children will enjoy this game because it's not too difficult to learn how to play yet still requires skill and practice to master it. Adults will love it because they can compete against each other to see who has the best skills. It's also a great game to play with family members or friends, which is why it makes for the perfect family game night! Small Diameter and Portable Carrom Pool can be packed up easily if you want to take it somewhere else. Even though the boards are small in size, they're very durable because they're made out of high-quality wood. Carrom Pool is truly one of those games that could be played anywhere - outside at the beach, at the park, or even indoors on a rainy day. Carrom Pool can fit in your purse or bag so you could even bring it around with you everywhere you go! Fun for Everyone Whether you're young or old, Carrom Pool is fun for everybody. You can play with anyone of any age; if you get stuck, detailed instructions are always available to help out. Even better? It's portable! This means you can take it anywhere. Whether it's on your next family vacation or just an afternoon at the park, you and your friends and family will be enjoying yourselves throughout the time! Family Game Night If looking for a fun game to play alongside your kids, this one should be high up on your list! It works great as a family game night activity since everyone in the family can enjoy playing it no matter their age or skill level. Most importantly, each player gets to score points during the game, which keeps all players invested. Once you get the hang of it, this game can move pretty quickly, so be prepared! Meetings Carron Pool is a great way to pass time in meetings or during lunch breaks. There are multiple different modes to play with unique scoring systems and shooting objectives, so every time you play feels like something new! If you're not too concerned about turning it into a competitive match, there are even solitaire modes available. Whatever your preference may be, Carrom Pool has something for everyone. I enjoy the original carrom game which is the second choice on the menu because it requires some strategic thinking. Thanks for a great game and no thanks for making me an addict! Gud game. But fine the player who won't hit the pan. Bcz players are not hitting the pan intentionally, jus bcz they won't be having chances of winning the pan. So they jus play the striker for rebound like not hitting the pans or leave off without playing the striker. So I request you people to build the app like fining the player who won't hit the pans. Well designed,but chatting with opponent is not available ,it will give some fun if u can add that option please do and having some ideas from my side i suggest u if u can please add some more tag message that which will display at playing time and if u can add some more emojis.....and give an option to the player to block any player if he doesnt like to play with the opponent..... Enable it.Now, return to the download folder and click on the Carrom Pool Mod APK file to start the installation.Enjoy! People Also Ask (FAQs) What is the latest version of Carrom Pool? The latest version is 6.0.10 and was released in 2022. How do you install Carrom Pool? You can install Carrom Pool from the Steps mentioned above in the post. Who is the king of carrom disc pool? Koliad Singh from Jaipur, India. He beat the world record by scoring 31 consecutive strikes in one game. Also, he pocketed 44 disks during his last attempt How do you play Carrom Pool? To learn how to play carrom pool you can refer to these simple steps here :1. Setup for Play: To set up Carrom Pool, first you have to decide if you are playing a game with special rules. If so, each player should put their "king" disk on the appropriate colored circle at the center of their end of the board.2. Shooting: Shooting is done from the center of one board to the center of another. If playing a traditional Carrom Pool game, you must shoot with both disks at once in a way that they land on both boards simultaneously.3. Scoring: The scoring depends on where your disks land and whether they are touching any other disks or not when they land. You can refer to this simple chart below for more details about scoring during play:1 Point - Disk touches edge but does not leave the board5 Points - Disk lands inside circle containing opponent's disk(s)3 Points - Your disk falls on top of one or more opponent's disks10 Points - Opponent's disk lands outside of the circle containing your own Need Help?
